Milk Producers Threaten Strike To Get Increase

Demand Two Cents More Per Quart In District Area

The Maryland and Virginia Milk Producers' Association today served notice that it would instruct dairymen in the Washington area to withhold all milk from the market "if the Federal Government does not approve promptly a substantial increase in the price to producers."

Bruce B. Derrick, manager of the association, who disclosed the group's stand at the outset of an Agriculture Department hearing on a price increase in milk, said this amounted to a threat of strike by dairymen.

It was said earlier that the proposed increase to producers might raise the retail price of milk 2

cents a quart Union Demands Also Made. In addition to the producers' demands for higher prices, there are

the demands of union employes of milk distributors for higher wages. A spokesman who has followed the various steps in progress said consumers possibly might be called on to pay increases which would run as high as 7 or 9 cents a quart. However, it was indicated this represented the blackest side of the

The 2 cents a quart increase asked by the producers is in addition to the present 2-cent a quart subsidy which expires May 30. If the subsidy should be withdrawn, the distributors expect the demand for 4 cents would be made on them. However, there was said to be considerable optimism that the 2-cent subsidy would be continued.
